

# Level and Salary

Data Science

Euron

## Experience Level Breakdown:

While specific numbers fluctuate, the distribution of data science job opportunities by experience level in recent years has been:

- **Entry-Level (0-1 year):** Approximately 5% of positions.
- **Early Career (1-2 years):** Around 20% of positions.
- **Mid-Level (2-5 years):** About 34% of positions.
- **Experienced (5-7 years):** Roughly 25% of positions.
- **Senior-Level (7+ years):** Approximately 15% of positions.

### Entry-Level (0–2 Years):

- **Average Salary:** Approximately ₹5,00,000 to ₹7,00,000 per annum.
- **Details:** Fresh graduates or professionals with up to 2 years of experience can expect salaries in this range. Factors influencing this include educational background, technical skills, and the hiring company's profile.

### Mid-Level (3–5 Years):

- **Average Salary:** Approximately ₹10,00,000 to ₹15,00,000 per annum.
- **Details:** Professionals with 3 to 5 years of experience are typically involved in more complex projects and may have some mentorship responsibilities. Their compensation reflects their enhanced expertise and contributions.

### Senior-Level (6+ Years):

- **Average Salary:** Starting from ₹16,00,000 and can exceed ₹30,00,000 per annum.
- **Details:** Senior data scientists often hold leadership roles, manage teams, and drive strategic initiatives. Their extensive experience and specialized skills command higher salaries.

## 1. Experience Level:

- **Entry-Level (0–2 Years):**
  - **Average Salary:** ₹3.8 Lakhs to ₹7 Lakhs per annum.
